Kansas Administrative Regulations

Department of Health and Environment

Article 35.—Radiation—Part 3. Licensing of Sources of Radiation.

28-35-182d. Qualifications for a type C specific license of broad scope.

A type C specific license of broad scope shall be issued only to an applicant who:

(a) submits a statement that radioactive material will only be used by, or under the direct supervision of, an individual or individuals who have:

(1) at least a bachelor's degree or equivalent training and experience in a physical or biological science or in engineering; and

(2) at least 40 hours of training and experience in the safe handling of radioactive materials, and in the characteristics of ionizing radiation, units of radiation dose and quantities, radiation detection instrumentation, and biological hazards of exposure to radiation. Such training and experience shall be appropriate to the type and forms of radioactive material to be used; and

(b) has established administrative controls and provisions relating to procurement of radioactive materials, procedures, record-keeping, material control and accounting, and management review to assure safe operations. These control provisions shall include appropriate administrative procedures which assure that:

(1) procurement and use of radioactive material is controlled; and

(2) safety evaluations of proposed uses of radioactive material are completed. Such evaluations shall take into consideration the adequacy of facilities and equipment and proper operating or handling procedures.

(Authorized by and implementing K.S.A. 1984 Supp. 48-1607; effective, T-86-37, Dec. 11, 1985; effective May 1, 1986.)
