Kansas Administrative Regulations

Department of Health and Environment

Article 35.—Radiation—Part 3. Licensing of Sources of Radiation.

28-35-176a. Types of licenses.

Licenses for radioactive materials shall be either of the following types:

(a) Each general license shall be effective without the filing of an application with the department or the issuance of a licensing document to a particular person, although the filing of a certification with the department may be a requirement of the license. Each general licensee shall be subject to all other applicable portions of these regulations and any limitations of the general license. Any licensee may be required by the secretary to register a general license to protect public health and safety and the environment.

(b) Each specific license shall require the submission of an application to the department and the issuance of a licensing document by the department. Each specific licensee shall be subject to all applicable portions of these regulations as well as any limitations specified in the licensing document.

(Authorized by and implementing K.S.A. 48-1607; effective, T-86-37, Dec. 11, 1985; effective May 1, 1986; amended Dec. 30, 2005.)
