Article 35.—Radiation—Part 10. Notices, Instructions and Reports to Workers; Inspections.

28-35-334. Reports to individuals.

Radiation exposure data for an individual and the results of any measurements, analyses, and calculations of radioactive material deposited or retained in the body of an individual shall be reported to the individual as specified in this regulation.

(a) The information reported shall include data and results obtained pursuant to the requirements of these regulations or any order of the secretary or license condition, as shown in records maintained by the licensee or registrant pursuant to K.A.R. 28-35-227h. Each report shall meet the following requirements:

(1) Be in writing;

(2) include appropriate identifying data, including the name of the licensee or registrant, the name of the individual, and the individual's identification number, preferably social security number;

(3) include the individual's exposure information; and

(4) contain the following statement:

"This report is furnished to you under the provisions of Kansas Administrative Regulation 28-35-334. You should preserve this report for further reference."

(b) Each licensee or registrant shall make dose information available to individual workers shown in records maintained by the licensee or registrant pursuant to K.A.R. 28-35-227h. Each licensee or registrant shall provide an annual report to each individual worker monitored pursuant to K.A.R. 28-35-217a of the dose received in that monitoring year if either of the following situations occurs:

(1) The individual's dose exceeds 1 mSv (100 mrem) TEDE or 1 mSv (100 mrem) to any individual organ or tissue.

(2) The individual requests an annual dose report.

(c) Each licensee or registrant shall furnish a written report of a worker's exposure to sources of radiation or radioactive material at the request of the worker if the worker was formerly engaged in activities controlled by the licensee or registrant. The report shall be furnished within 30 days from the date of the request or within 30 days after the dose of the individual has been determined by the licensee or registrant, whichever is later. The report shall cover, within the period of time specified in the request, the dose record for each year the worker was required to be monitored pursuant to K.A.R. 28-35-217a. The report shall also include the period of time in which the worker's activities involved exposure to sources of radiation and shall include the dates and locations of work under the license or registration in which the worker participated during this period.

(d) When a licensee or registrant is required pursuant to K.A.R. 28-35-229a(a)(1) and (b)(1) to report to the department any exposure of an individual to sources of radiation, the licensee or the registrant shall also provide to the individual a written report of the individual's exposure data included in the report. This report shall be transmitted to the individual at a time not later than the transmittal of the report to the department.

(e) At the request of a worker who is terminating employment with the licensee or registrant that involves exposure to radiation or radioactive material or at the request of a worker who, while employed by another person, is terminating an assignment to work involving radiation dose in the licensee's facility, each licensee or registrant shall provide to the worker, or the worker's designee, a written report regarding the radiation dose received by that worker from operations of the licensee or registrant during the current year. The report shall be provided at the worker's termination. The licensee or registrant may provide a written estimate of that dose if the finally determined personnel monitoring results are not available at that time. Estimated doses shall be clearly indicated as such.
