Kansas Administrative Regulations

Department of Health and Environment

Article 16.—Water Pollution Control—Pretreatment.

28-16-121. Infiltration and inflow.

Each loan applicant for a sewerage facility project shall demonstrate that: (a) the existing sewage collection systems related to the proposed project are not subject to excessive infiltration or inflow; or

(b) the loan applicant has been implementing an effective ongoing infiltration and inflow reduction program for those sewage collection systems.

(Authorized by K.S.A. 65-3323; implementing K.S.A. 1988 Supp. 65-3322 and 65-3326; effective May 29, 1989.)
