## **Kansas Department of Agriculture**

### **Article 13.—Pesticides**

#### **4-13-7. Termite control application procedures.**

(a) Except as provided in subsection (c), each structure shall be treated by applying pesticide at the rate, concentration, and dosage specified on the product label in a manner that provides wooden construction elements with protection from termites in the entire structure.

(b) Wood, paper scrap, cardboard scrap, and other cellulose-containing debris shall be removed from any accessible crawl space under the building to be treated.

(c) An application procedure different from that required by subsection (a) may be employed by a certified applicator. When a different application procedure is used, the pest control operator shall furnish adequate control and shall state on the required written statement the application procedure used. These methods of control shall be requested or agreed to by the customer in writing before completion of application. The applicator shall state, on the required statement of services and diagram, the application procedures used and how the procedures differ from the requirements of subsection (a). (Authorized by and implementing K.S.A. 2-2467a and K.S.A. 2-2471; effective, E-78-26, Sept. 7, 1977; effective May 1, 1978; amended July 18, 2003.)
