

Kansas Administrative Regulations

Kansas Corporation Commission

Article 12.—Wire-Stringing Rules

82-12-9. Inductive coordination.

When there is inductive interference, each affected utility shall work out an agreement to attain inductive coordination. When such an agreement is necessary, the most convenient and economical method consistent with effectiveness shall be employed whether that method limits inductive influence of the electric circuits, the inductive susceptiveness of the communication circuits, the inductive coupling between the two kinds of circuits or employs a combination of these methods. If there is a choice of methods, the one selected shall be applied to one or both systems according to the best engineering solution regardless of which circuit will require the greatest cost in corrective measures.

(Authorized by and implementing K.S.A. 66-183; effective Aug. 11, 1995.)
