

Kansas Administrative Regulations

Department of Health and Environment

Article 72.—Residential Childhood Lead Poisoning Prevention Program

28-72-1a. Definitions.

In addition to the definitions in K.S.A. 65-1,201 and amendments thereto, each of the following terms shall have the meaning assigned in this regulation: (a) "Abatement project reinspection fee" means the sum of money assessed to a KDHE-licensed lead activity firm by KDHE when KDHE is unable to inspect an abatement project due to the fault of the lead activity firm or its personnel.

(b) "Accreditation" means approval by KDHE of a training provider for a training course to train individuals for lead-based paint activities.

(c) "Accredited course" means a course that has been approved by the department for the training of lead professionals.

(d) "Act" means the residential childhood lead poisoning prevention act, and amendments thereto.

(e) "Adequate quality control" means a plan or design that ensures the authenticity, integrity, and accuracy of samples, including dust, soil, and paint chip or paint film samples. Adequate quality control shall also include provisions for representative sampling.

(f) "Audit" means the monitoring by KDHE of a certified individual, a licensed lead activity firm, or an accredited training provider to ensure compliance with the act and this article.

(Authorized by and implementing K.S.A. 65-1,202; effective April 9, 2010.)
