Kansas Administrative Regulations

Department of Health and Environment

Article 35.—Radiation—Part 7. Special Requirements for Industrial Radiographic Operations.

28-35-280. Quarterly inventory.

Each licensee shall conduct a quarterly inventory to account for all sealed sources and for all devices containing depleted uranium received or possessed by the licensee. The licensee shall maintain these inventory records for two years following the date of the inventory and shall include the following information:

(a) The quantities and kinds of sources and devices containing depleted uranium inventoried;

(b) the location of the sources and devices containing depleted uranium at the time of inventory; and

(c) the date on which the inventory was conducted.

(Authorized by and implementing K.S.A. 48-1607; effective Jan. 1, 1970; amended, T-85-43, Dec. 19, 1984; amended May 1, 1985; amended Dec. 30, 2005.)
