

Kansas Administrative Regulations

Kansas Department of Agriculture—Division of Conservation

Article 4.—Multipurpose Small Lakes Programs

11-4-16. Testing and disposal of sediment from reservoir.

The testing of sediment by the sponsor may be required by the commission before or during excavation, or both. The sponsor shall be required to have one or more sufficient sediment storage basins for the disposal of excavated material.

(Authorized by K.S.A. 2005 Supp. 82a-1602 and K.S.A. 82a-1607; implementing K.S.A. 82a-1607; effective Sept. 22, 2006.)
