

Kansas Administrative Regulations

Kansas Department of Agriculture—Division of Water Resources

Article 6.—Storage of Water

5-6-8. Determination of average annual seepage loss from a reservoir.

Average annual seepage loss from a reservoir shall be determined by the chief engineer based on relevant, credible information furnished by the applicant. If no relevant, credible information is supplied by the applicant, it shall be assumed by the chief engineer that there is no seepage loss.

(Authorized by K.S.A. 82a-706a; implementing K.S.A. 82a-707(e), K.S.A. 1999 Supp. 82a-711, and K.S.A. 82a-712; effective Sept. 22, 2000.)
