Department of Health and Environment

Article 19.—Ambient Air Quality Standards and Air Pollution Control—General Regulations.

28-19-9. Time schedule for compliance.

Except as otherwise noted in specific emission control regulations, compliance with these regulations shall be according to the following schedules: (a) All new air contaminant emission sources or alterations to emission sources that are required to be reported under the provisions of K.A.R. 28-19-8(a) shall be in compliance with all applicable emission control regulations at the time that they go into operation. The department may authorize the operation of a new or altered emission source for any additional specified time periods that are required to make necessary adjustments on the equipment before compliance can be demonstrated. This authorization shall be granted only at the request of the operator and under conditions that are approved by the department.

(b) Any air contaminant emission source that was operating, under construction or under purchase contract on January 1, 1971, and that has not previously been required to comply with any emission control requirement in these regulations, shall comply with that emission control requirement or those requirements within 180 days after the department notifies the owner or operator that the emission source is required to be reported under the provisions of K.A.R. 28-19-8(a).

(c) The owner or operator of any portable stationary air contaminant emission source that has been issued a permit under K.A.R. 28-19-14 and which is moved to another location within the state shall report the move to the department, in writing, at least 10 days before the source commences operation at the new location. The report shall identify the equipment being moved, describe the old and the new location, indicate the scheduled date that operation of the source at the new location is to begin, and indicate the expected operating period at this location.
