Article 13.—Underground Storage, Disposal Wells and Surface Ponds

28-13-2. Definitions.

(A) Underground storage reservoir. An underground storage reservoir is hereby defined as any naturally occurring or artificially produced subsurface cavity in which petroleum products, acids, radioactive materials, or fluid or gaseous products are stored.

(B) Surface pond. The term surface pond as used herein is defined as any constructed, excavated or naturally occurring area used for the storage, confinement or treatment of industrial waste waters, salt water or other highly mineralized waters.

(C) Disposal well. The term disposal well as used herein is defined as any well which receives industrial waste waters, both organic and inorganic, salt water or other highly mineralized waters for disposal into underground formations.

(Authorized by K.S.A. 65-164, 65-165, 65-171d; effective Jan. 1, 1966.)
