

Kansas Administrative Regulations

Kansas Department of Agriculture—Division of Animal Health

Article 12.—Swine, Specific Pathogen Free Regulations

9-12-5. Health inspections.

All health and disease inspections shall be made by a licensed accredited veterinarian before accreditation for the swine herd, is issued. If, after this inspection, gross evidence of disease is established, further laboratory analysis shall be made before the swine herd can be accredited.

Health and disease inspection reports shall be filed in the office of the livestock sanitary commissioner of Kansas, or his representative, on a quarterly basis.

All veterinarian visits and contacts with swine herds on the farm, during the quarterly periods, between required reports, shall be reported in the current quarterly report, including complete diagnostic reports. Due date for the required quarterly reports shall be for the period ending on January 10, April 10, July 10, or October 10, of each year. A producer member delinquent in his reports or inspections, for longer than three months after report due date, shall have his accreditation suspended by the livestock sanitary commissioner of Kansas; provided, he shall have been first duly notified by such commissioner, or his authorized representative. He may have his accreditation renewed when his required reports and inspections are brought to date.

(Authorized by K.S.A. 1968 Supp. 47-670; effective, E-68-24, Aug. 9, 1968; effective Jan. 1, 1969.)
