Kansas Administrative Regulations

Department of Health and Environment

Article 35.—Radiation—Part 3. Licensing of Sources of Radiation.

28-35-206. Applicability of decommissioning requirements following license termination.

If, after a site has been decommissioned and associated license has been terminated, new information shows that the requirements specified in these regulations were not met or that the residual radioactivity at the site could result in a significant threat to public health and safety and the environment, then the former licensee shall be required to perform any additional decontamination that is deemed necessary by the secretary.

(Authorized by and implementing K.S.A. 48-1607; effective Dec. 30, 2005.)
