

Kansas Administrative Regulations

Department of Health and Environment

Article 35.—Radiation

28-35-205. Termination of a license without restriction.

(a) A site shall be considered acceptable for unrestricted use if both of the following conditions are met:

(1) The residual radioactivity that is distinguishable from background radiation results in a TEDE to an average member of the critical group that does not exceed 0.25 millisievert or 25 mrem per year, including the residual radioactivity from groundwater sources of drinking water.

(2) The residual radioactivity has been reduced to levels that are as low as reasonably achievable (ALARA). Any detriment, including any deaths from transportation accidents that could result from decontamination and waste disposal, shall be taken into consideration by the secretary.

(b) Each specific license, including any expired license, shall be terminated upon written notice to the licensee if the secretary determines that all of the following conditions are met:

(1) All radioactive material has been properly disposed of.

(2) A reasonable effort has been made to eliminate the residual radioactive contamination, if present.

(3) Documentation has been provided to the department demonstrating one of the following:

(A) A radiation survey has been performed and shows that the premises meet the requirements of this regulation.

(B) The other information submitted by the licensee is sufficient to show that the premises are suitable for release in accordance with this regulation.

(Authorized by and implementing K.S.A. 48-1607; effective Dec. 30, 2005.)
