

Kansas Administrative Regulations

State Fire Marshal

Article 10.—Installation and Certification Standards for Extinguishing Devices

22-10-16. Automatic extinguishing systems.

In addition to the provisions of K.A.R. 22-10-15, each facility maintaining commercial cooking equipment shall have approved automatic extinguishers mounted in the ventilation canopies or directly above such equipment. All equipment shall bear the label of a nationally-recognized testing laboratory and shall contain an approved extinguishing agent. The state fire marshal may exempt a facility from the requirements of this regulation, if in the marshal's opinion, the exemption from this requirement would not present an immediate life safety hazard.

Editor's Note:

This article was formerly entitled "Explosives." Regulation previously numbered 22-10-1 was revoked May 1, 1980, and the number reassigned to the current subject matter.

(Authorized by and implementing K.S.A. 1985 Supp. 31-133; effective May 1, 1985; amended May 1, 1987.)
