Department of Health and Environment

Article 35.—Radiation—Part 15. Packaging and Transportation of Radioactive Material.

28-35-500. General license: NRC-approved packages.

(a) A general license shall be deemed to have been issued to any licensee to transport, or to deliver to a carrier for transport, any licensed or registered material in a package for which a license, certificate of compliance, or other approval has been issued by the NRC.

(b) Each general license specified in subsection (a) shall apply only to a licensee who has a quality assurance program approved by the department.

(c) Each general license specified in subsection (a) shall apply only to a licensee who meets the following requirements:

(1) Possesses a copy of the specific license, certificate of compliance, or other approval by the NRC for the package and has the drawings and any other documents referenced in the approval relating to the use and maintenance of the package and to the actions to be taken before shipment;

(2) complies with the terms and conditions of the license, certificate of compliance, or other approval, as applicable, and with the applicable requirements of part 15 of these regulations; and

(3) registers with the NRC before the licensee's first use of the package according to the methods described in 10 C.F.R. 71.17(c)(3), dated January 1, 2020, which is hereby adopted by reference.

(d) Each general license specified in subsection (a) shall apply only if the package approval authorizes the use of the package under this general license.

(e) Each general licensee specified in subsection (a) shall meet the requirements of K.A.R. 28-35-501 when using any type B or fissile material package approved by the NRC before April 1, 1996.

(Authorized by and implementing K.S.A. 48-1607; effective Dec. 30, 2005; amended April 1, 2022.)
