

Kansas Administrative Regulations

Department of Health and Environment

Article 72.—Residential Childhood Lead Poisoning Prevention Program

28-72-1r. Definitions.

In addition to the definitions in K.S.A. 65-1,201 and amendments thereto, each of the following terms shall have the meaning assigned in this regulation: (a) "Reaccreditation" means the renewal of accreditation of a training provider for a training course after the expiration of the initial accreditation.

(b) "Recognized laboratory" means a laboratory recognized by the EPA pursuant to section 405(b) of the toxic substances control act (TSCA) as being capable of performing analyses for lead compounds in paint chips, dust, and soil samples.

(c) "Reduction" means any measure designed and implemented to reduce or eliminate human exposure to lead-based paint hazards including interim controls and abatement.

(d) "Refresher course" means a training course taken by a certified lead professional to maintain certification in a particular discipline.

(e) "Renewal" means the reissuance of a lead occupation certificate, a lead activity firm license, or a training provider accreditation.

(f) "Risk assessment" means an on-site investigation to determine the existence, nature, severity, and location of lead hazards in a residential dwelling or child-occupied facility and the provision of a written report explaining the results of the investigation and options for reducing lead hazards.

(g) "Risk assessor" means an individual certified by the secretary who meets the requirements in K.A.R. 28-72-6.

(Authorized by and implementing K.S.A. 65-1,202; effective April 9, 2010.)
