Kansas Administrative Regulations

Department of Health and Environment

Article 35.—Radiation—Part 7. Special Requirements for Industrial Radiographic Operations.

28-35-287. Radiation surveys and survey records.

(a) No radiographic operation shall be conducted unless calibrated and operable radiation survey instruments, as specified in K.A.R. 28-35-278, are available and used at each site where radiographic exposures are made.

(b) A survey using a radiation survey instrument shall be made after each radiographic exposure to determine that the sealed source has been returned to its shielded position. The entire circumference of the radiographic exposure device shall be surveyed. If the radiographic exposure device has a source guide tube, the survey shall include the guide tube.

(c) Before securing in a storage area any radiographic exposure device, storage container, or source changer in the manner specified in K.A.R. 28-35-276, a survey using a radiation survey instrument shall be made to determine that each sealed source is in the shielded position.

(d) A record shall be kept of each survey performed for two years to comply with this regulation.

(Authorized by and implementing K.S.A. 48-1607; effective Jan. 1, 1970; amended Jan. 1, 1972; amended, T-85-43, Dec. 19, 1984; amended May 1, 1985; amended Sept. 20, 1993; amended Dec. 30, 2005.)
