Article 35.—Radiation—Part 7. Special Requirements for Industrial Radiographic Operations.

28-35-282. General requirements.

(a) Each radiographer's assistant shall be under the personal supervision of a radiographer when using any radiographic exposure device, any associated equipment, or a sealed source, or while conducting radiation surveys to determine that the sealed source has returned to the shielded position or that the radiation machine is shut off after each exposure. The personal supervision shall include the following:

(1) The radiographer's physical presence at the site where the sources of radiation are being used;

(2) the availability of the radiographer to provide immediate assistance, if required; and

(3) the radiographer's direct observation of the assistant's performance of the operations.

(b) Each licensee or registrant shall conduct an internal audit program to ensure that the agency's radioactive material license conditions and the licensee's or registrant's operating and emergency procedures are followed by each radiographer and radiographer's assistant. These internal audits shall be performed at least quarterly, and each radiographer shall be audited at least quarterly. A record of each internal audit shall be maintained for departmental inspection for two years after the date of the audit. (Authorized by and implementing K.S.A. 48-1607; effective Jan 1, 1970; amended May 1, 1976; amended, T-85-43, Dec. 19, 1984; amended May 1, 1985; amended Sept. 20, 1993; amended Dec. 30, 2005.)
