

Kansas Administrative Regulations

Kansas Department of Agriculture

Article 4.—Commercial Fertilizers

4-4-923. Existing storage tanks which have a capacity of 100,000 gallons or more.

(a) Liquid fertilizer storage containers with a capacity of 100,000 gallons or more shall be located within an approved secondary containment area designed to allow the containment and recovery of any discharged fertilizer material.

(b) Unless otherwise approved pursuant to K.A.R. 4-4-956, the surface supporting the storage container shall be elevated above the surrounding surface of the containment area so that the lowest point of the storage container shall be at least six inches above the surrounding surface of the containment area to permit visual identification of any leaks which may develop in the floor of the storage container.

(c) This regulation shall apply to all storage containers with a capacity of 100,000 gallons or more which were placed in service on or before January 13, 1991.

(Authorized by and implementing K.S.A. 2-1227; effective Jan. 14, 1991; amended Jan. 25, 1993.)
