Article 6.—Good Time Credits and Sentence Computation

44-6-144. Minimum sentence expended at parole eligibility—sentence computation.

Once the inmate has become eligible for parole, or has been given a parole hearing by the Kansas adult authority, no other parole eligibility shall be established. However, if subsequent sentences are to be served consecutively to the earlier ones, the computation of the new parole eligibility shall utilize the minimum term of the earlier sentence as part of the complete computation. The earlier minimum sentence shall not be considered as eliminate by parole and may be used when required as an element in the computation of a subsequent or composite sentence.
