

Kansas Administrative Regulations

Department of Health and Environment

Article 12.—Pathogenic Microorganisms

28-12-1. Distribution and use of live pathogenic microorganisms.

No pathogenic microorganisms and/or vectors shall be purchased or obtained either interstate or intrastate by persons for use at the high school level (no exceptions). For this purpose the terms pathogenic microorganisms and vectors are defined as, "all cultures or collection or [of] microorganisms or their derivatives, which may introduce or disseminate any contagious or infectious disease of man or animals," and "all animals (including poultry) such as mice, pigeons, guinea pigs, rats, ferrets, rabbits, chickens, dogs, and the like which have been inoculated with infectious organisms, or which are diseased or infected with any contagious, infectious, or communicable disease of humans, animals or poultry, or which have been exposed to any such diseases."

(Authorized by K.S.A. 65-101; effective Jan. 1, 1966.)
