

Kansas Administrative Regulations

Department of Health and Environment

Article 27.—Hazardous Household Articles

28-27-23. Bubble forming materials to be non-toxic.

Materials intended for blowing bubbles, whether aqueous or plastic, shall be composed only of materials which are non-toxic by ingestion, inhalation, absorption through the skin or through the eyes.

(Authorized by K.S.A. 1965 Supp. 65-2703; effective Jan. 1, 1966.)
