

Kansas Administrative Regulations

Kansas Department of Agriculture—Division of Animal Health

Article 8.—Livestock Feed Lots

9-8-1. Cleaning of premises.

(1) Feed lots shall be thoroughly scraped and cleaned, and all manure removed, at least two times each calendar year, and more frequently if necessary to maintain proper standards of cleanliness and sanitation.

(2) Manure removed from a feed lot shall be disposed of in one of the following manners: (a) Hauling to and placing upon farm land, where same shall be spread out and plowed under the soil surface; (b) dehydrating by a mechanical dehydrating process; (c) depositing in lagoons or settling tanks, having such construction and size to effectuate substantial reduction by bacterial action; (d) using any other method specifically approved by the livestock sanitary commissioner. Manure removed from a feed lot may be stockpiled, and shall be moved for final disposal when conditions permit.

(3) Locations at a feed lot which might be the source of insect breeding, (a) shall be cleaned, or (b) shall be treated with approved chemicals, or (c) shall be both cleaned and treated with approved chemicals. The procedure followed shall be in such manner as to eliminate or substantially reduce the breeding of flies.

(Authorized by K.S.A. 47-1505 and 47-1506; effective Jan. 1, 1966.)
