

Kansas Administrative Regulations

Kansas Department of Agriculture

Article 13.—Pesticides

4-13-35. Registered pest control technician identification cards.

(a) The secretary shall issue an identification card to each registered pest control technician upon satisfactory completion of the requirements for registration. This identification card shall show the registered technician's typed name and signature, the category or subcategory for which the registration has been issued, the name of the business licensee employing the registered technician, the date on which the identification card was issued, and the expiration date of the registration. The registered pest control technician shall have this identification card in the technician's possession when applying any pesticide for the control of wood destroying pests, structural pests, ornamental pests, turf pests, interior landscape pests, or any combination of these pests or when supervising the application of any general use pesticide. The technician shall produce this identification card when requested to do so by any customer, law enforcement official, the secretary or any authorized representative of the secretary. This regulation does not authorize any registered pest control technician to supervise the use of, or to apply, any restricted use pesticide unless the application is supervised by a commercial applicator who is certified to apply restricted use pesticides for the control of pests in the category or subcategory for which the pesticide application is made.

(b) This regulation shall be in force and effect from and after January 1, 1989. (Authorized by K.S.A. 1987 Supp. 2-2467a; implementing K.S.A. 1987 Supp. 2-2440b as amended by L. 1988, Ch. 7, § 3; effective, T-88-46, Nov. 10, 1987; effective May 1, 1988; amended Jan. 1, 1989.)
