

Kansas Administrative Regulations

Department of Health and Environment

Article 72.—Residential Childhood Lead Poisoning Prevention Program

28-72-1p. Definitions.

In addition to the definitions in K.S.A. 65-1,201 and amendments thereto, each of the following terms shall have the meaning assigned in this regulation: (a) "Paint" means all types of surface coatings, including stain, varnish, epoxy, shellac, polyurethane, and sealants.

(b) "Passing score" means a grade of 80% or higher on the third-party examination and training course examination for a lead occupation certificate.

(c) "Permanently covered soil" means soil that has been separated from human contact by the placement of a barrier consisting of solid, relatively impermeable materials, including pavement and concrete. Soil covered with grass, mulch, and other landscaping materials shall not be deemed permanently covered soil.

(d) "Principal instructor" means an individual who meets the following requirements:

- (1) Is directly employed and monetarily compensated by a training provider;
- (2) is certified to perform the lead occupation in which the individual will provide instruction or has obtained certification in an advanced lead occupation; and
- (3) has the primary responsibility for organizing and teaching a training course.

(e) "Project design" means lead abatement project designs, lead hazard control project designs, occupant protection plans, and lead abatement reports.

(Authorized by and implementing K.S.A. 65-1,202; effective April 9, 2010.)
