

Kansas Administrative Regulations

Department of Health and Environment

Article 72.—Residential Childhood Lead Poisoning Prevention Program

28-72-19. Work practice standards; collection and laboratory analysis of samples.

All paint chip, dust, and soil samples collected pursuant to the work practice standards contained in this article shall meet the following conditions:

(a) Be collected by a lead inspector, risk assessor, or elevated blood lead level investigator using adequate quality control; and

(b) be analyzed by a recognized laboratory.

(Authorized by and implementing K.S.A. 65-1,202; effective, T-28-9-13-99, Sept. 13, 1999; effective Jan. 7, 2000; amended Dec. 6, 2002; amended April 9, 2010.)
