Kansas Administrative Regulations

Department of Health and Environment

Article 35.—Radiation—Part 15. Packaging and Transportation of Radioactive Material.

28-35-500a. General license: use of foreign-approved package.

(a)(1) A general license shall be deemed to have been issued to any licensee to transport, or to deliver to a carrier for transport, any licensed or registered material in a package with a design approved as documented by a foreign national competent authority certificate that has been revalidated by the U.S. department of transportation as meeting the applicable requirements of 49 C.F.R. 171.23.

(2) Except as otherwise provided in part 15 of these regulations, the general license shall be valid only for a licensee who has a quality assurance program approved by the NRC or the department as meeting the applicable provisions of K.A.R. 28-35-505.

(b) Each general license issued under subsection (a) shall apply only to shipments made to or from locations outside the United States.

(c) Each licensee issued a general license under subsection (a) shall meet the following requirements:

(1) Have a copy of the specific license, certificate of compliance, or other approval by the NRC for the package and have the drawings and any other documents referenced in the approval relating to the use and maintenance of the package and to the actions required before shipment; and

(2) comply with the terms and conditions of the license, certificate of compliance, or other approval, as applicable, and with the applicable requirements of part 15 of these regulations.

(Authorized by and implementing K.S.A. 48-1607; effective April 1, 2022.)
