

Kansas Administrative Regulations

Department of Health and Environment

Article 27.—Hazardous Household Articles

28-27-16. Articles containing harmful solvents.

Paints, varnishes, paint removers and similar products, not described in 28-27-14 containing significant amounts of materials or solvents which may be harmful shall bear cautionary statements warning the user of hazards existing in their use. Manufacturers shall be guided in the labeling of this class of products by the principles set forth in manufacturing chemists association manual L-1 warning labels applying to the specific hazardous chemicals involved.

(Authorized by K.S.A. 1965 Supp. 65-2703; effective Jan. 1, 1966.)
