

Kansas Administrative Regulations

Kansas Department of Agriculture—Division of Animal Health

Article 8.—Livestock Feed Lots

9-8-2. Control of insects, rodents, and pests.

(1) Effective chemicals, approved by the livestock sanitary commissioner, shall be used for killing of flies on and about the feed lot premises. Such chemicals shall be applied with such frequency, and with such coverage, as will eliminate or reasonably control the fly population on such premises.

(2) Effective methods, approved by the livestock sanitary commissioner, shall be used for the eradication of the rodent population. Approved formulas of gas and poisons, may be used.

(Authorized by K.S.A. 47-1505 and 47-1506; effective Jan. 1, 1966.)
