

Kansas Administrative Regulations

Kansas Department of Agriculture—Division of Water Resources

Article 6.—Storage of Water

5-6-1. Application proposing storage, contents.

Any person intending to store water may make application to the chief engineer in the same manner as any other person making application for permit to appropriate water for beneficial use. The application shall set forth the same general information as any other application for permit to appropriate water for beneficial use and, in addition, shall be accompanied by information to show:

- (a) The area-capacity data of the reservoir in which the water is to be stored.
- (b) The drainage area.
- (c) The names and mailing addresses of the owners of lands that will be inundated by water accumulated in the reservoir.
- (d) Any additional information as may be required by the chief engineer for a proper understanding of the proposed appropriation and storage of water.

(Authorized by K.S.A. 82a-706a; modified, L. 1978, ch. 460, May 1, 1978.)
