

Kansas Administrative Regulations

Kansas Department of Agriculture—Division of Water Resources

Article 43.—Sand Dredging Permits

5-43-2. Sand dredging; buffer zone.

There shall be a buffer zone of not less than 500 feet between dredging operations, and between dredging operations and all bridges. There shall be a buffer zone of 300 feet between dredging operations and buried pipeline or cable crossings. There shall be a buffer zone of 200 feet between dredging operations and levees, or other features subject to damage by undercutting.

(Authorized by K.S.A. 82a-303a; implementing K.S.A. 82a-303; effective May 1, 1987.)
