

Kansas Administrative Regulations

Department of Labor

Article 50.—General Requirements for All Boilers

49-50-24. Installer qualifications.

Each person who installs, repairs, or tests boilers that have the capacity to generate 1,250,000 BTUH or more shall be authorized by the chief boiler inspector before proceeding with the installation, repair, or testing of that type of boiler. If the chief boiler inspector confirms that the person meets the applicable requirements in the standards and codes for the installation, repair, or testing, the chief boiler inspector shall authorize the person to install, repair, or test that type of boiler. The person shall inform the chief boiler inspector before the boiler installation, repair, or testing begins and after it is completed.

(Authorized by and implementing K.S.A. 44-916; effective Nov. 3, 2006.)
